ABOUT US

TD Web Services was founded with a simple philosophy in mind: provide the best quality service and support to customers. Since then, we have refined our mission to provide exceptional service, not just servers. We realize that our customers have many choices when it comes to web hosting and we want our service to set us apart from the competition.

WHAT YOU CAN EXPECT FROM US

You are getting a solution designed and created exactly for your needs. You will benefit from the significant knowledge and extensive long-term experience of our high-level system administrators, developers, and DevOps engineers. You'll get an assurance that your business in good hands since we do a full scope of work starting from software development and day-to-day system administration tasks to planning and building of highly scalable and flexible Cloud Environment.

SUPPORTED TECHNOLOGIES

- **Operating systems:** CentOS/Red Hat, Cloud Linux, Debian/Ubuntu, Windows Server 2003/2008/2012
- **Infrastructure as a Service:** TDWS, Amazon Web Services, Rackspace, Azure, Google Cloud platform
- **Platform As A Service:** TDWS
- **Cloud computing platforms:** CloudStack, OpenStack
- **Virtualization Platforms:** VMware, KVM, Xen, Vagrant, Open VZ, Hyper-V, Virtuozzo/Parallels Cloud Server, SolusVM, Proxmox, Virtualizor
- **Containerization:** Docker, Kubernetes
- **Infrastructure automation and management:** Puppet, Ansible, Chef
- **Continuous monitoring:** Nagios, Icinga, Cacti, OMD, Grafana, Zabbix, Monit, NetData, Munin, Prometheus
- **Continuous integration:** Jenkins, TeamCity, GitLab CI
- **Version control:** Git, SVN, GitLab
- **Caching:** Memcached, Varnish
- **Log analytics:** ELK – Elasticsearch, Logstash, Kibana
- **Database servers:** PostgreSQL, MySQL (and derivatives), Oracle, MS SQL, OpenLDAP, MongoDB, Cassandra, Redis
- **Web servers:** Apache, Nginx, Gunicorn
- **Web hosting control panels:** cPanel, Plesk, ISPConfig
- **Mail servers:** Postfix, Exim, Qmail, Sendmail, Zimbra, Dovecot/Courier
- **Big Data Systems:** Hadoop
- **Security:** Firewalls, IDS
- **Load Balancing:** LVS, HAProxy, Traefik, Nginx

IN HOUSE TALENT – NO OUTSOURCING

Service Beyond Support means that our entire team is invested in creating a better experience for your business. Have an issue? Have a question? Need someone to bounce an idea off? For us, service is much bigger than support. It starts before you are a customer and transcends the typical structure for something better. We have a team of knowledgeable staff and engineers available 24/7/365 to help you with whatever you may need. We do not outsource our support to any third parties, so you will always be in contact with one of our staff members.
